# Main Line Flax

## Environmental Product Profile

### 70% Virgin Wool, 30% Flax

Main Line Flax, made from 70% wool and 30% flax fibre continues our world leading progress in the design, manufacture and distribution of fabrics made from blends of bast fibre and wool. A simple, hardwearing plain weave structure, Main Line Flax is a new, sustainable take on a well-loved and trusted classic available in a palette of 41 shades.

### EU Ecolabel Certified

The EU Ecolabel helps you identify products and services that have a reduced environmental impact throughout their life cycle, from the extraction of raw material through to production, use and disposal. Recognised throughout Europe, the EU Ecolabel is a voluntary label promoting environmental excellence which can be trusted.

### LEED Credit Contributor

Main Line Flax can contribute to the following LEED credits:

LEED v3

- MRc2.2 Sustainable purchasing - furniture (over 50% rapidly renewable material)
- MRc5 Regional Materials (depending on distance of project location)
- MRc6 Rapidly Renewable Materials (70% wool, 30% flax)

Information on contribution to other green building schemes is available
